

PROFESSIONAL LEADERSHIP IN SUSTAINABILITY

Ar. Alex Tang has been involved in numerous Green Mark projects, including 80 Anson Road which is a Green Mark Platinum Super Low-Energy mixed development that comprises a Non-Residential Building and a Residential Apartment in a single vertical stack super high-rise tower.

Ar. Tang is an early adopter of 2D Precast and 3D Prefabricated Bathroom Unit (PBU) technology in 2003, along with large-scale 3D Prefabricated Prefinished Volumetric Construction (PPVC) for the Brownstone and Parc Riviera residential projects.

He was also a lecturer for Design for Manufacturing and Assembly (DfMA) at the BCA Academy to impart PPVC project knowledge with industry professionals.
