

PROFESSIONAL LEADERSHIP IN SUSTAINABILITY

Irene Yong has completed more than 80 Green Mark projects to date, including projects within the Nanyang Technological University (NTU) campus, DUO and Marina One.

She has helped clients to conceptualise sustainability targets to achieve top-tier sustainability awards including the Green Mark PlatinumStar Champion Award, Green Mark Platinum Award for Districts and Green Mark Platinum Award for New Parks.

Irene has been involved in several R&D projects as Principal Investigator and Industry Collaborator on green building technologies and ESD-related research works in collaboration with NTU and University of California, Berkeley. Irene also spearheaded four R&D projects funded by EDB to improve processes in carrying out environmentally sustainable designs.
