A seasoned sustainability leader with over a decade of experience at the forefront of green-tech innovation, Dr. Jason Tang currently steers Ngee Ann Polytechnic's sustainability agenda as Chief Sustainability Officer. His work spans the integration of sustainable practices across both curriculum and infrastructure, with a focus on empowering the next generation of leaders and driving impactful industry partnerships.

At the Centre for Environmental Sustainability (CfES), Dr. Tang has led the development of groundbreaking systems such as a distributed pumping solution that reduces electricity consumption in central cooled buildings and an advanced liquid cooling technology for data servers.

Dr. Tang is passionate about ensuring that eco-friendly solutions not only drive positive environmental change but also deliver measurable real-world outcome supporting both industry partners and academic institutions in achieving a sustainable future.
